- React Query
- Auth.js
- MongoDB • MySQL • Supabase • Firebase
- Git • GitHub Actions
- Vercel • AWS
- Jest • React Testing Library
- Lighthouse

Experience

React Developer | Brumbyte | 10/2024 - Current

- Spearheaded front-end development and Supabase integration for the flagship product, doubling feature delivery speed while architecting scalable technical solutions that translated complex business requirements.
- Managed all UI/UX aspects of product development, creating intuitive interfaces and seamless experiences, while ensuring technical feasibility in Next.js and coordinating priorities with backend teams.

Senior Scope Writer | Intersys | 02/2024 - 10/2024

- Pioneered new outline methodology achieving 2x improvement in content writer comprehension, while leading scope writing and QA teams to consistently deliver 60 high-quality book outlines monthly.
- Mentored team members in outline development best practices and maintained effective cross-functional collaboration, resulting in accelerated project completion times.

Associate Scope Writer | Intersys | 10/2023 - 02/2024

- Created detailed book outlines for 30 projects monthly, while upholding QA responsibilities, earning Top Employee of the Year recognition, and the highest appraisal package during annual reviews.
- Balanced dual-scope writing and QA roles, consistently meeting tight deadlines while maintaining exceptional quality standards across all deliverables.

Quality Assurance Associate | Intersys | 09/2022 - 10/2023

- Analyzed client calls, content reviews, and project management processes to improve team workflow, resulting in enhanced productivity, and earning a performance-based appraisal within four months.
- Elevated the production team's performance through the implementation of structured QA processes and feedback systems, receiving notable recognition during the annual company appraisal cycle.

Team Lead | HomeEasy Brokerage | 01/2022 - 06/2022

- Managed a 5-person client service team handling 150 daily clients while developing specialized systems for high-budget accounts, including direct coordination with the finalizing team.
- Established streamlined communication processes and workflow improvements that significantly enhanced overall team efficiency and client satisfaction.

Client Service Associate | HomeEasy Brokerage | 09/2021 - 01/2022

- Managed relationships with 100 daily clients, providing targeted property recommendations through detailed requirement analysis, while maintaining the highest client response rate on the team.
- Developed a rapid engagement and follow-up system that earned recognition for exceptional communication efficiency and client relationship management.

Education

IU University of Applied Sciences | Berlin, Germany

Bachelor of Science: Applied Artificial Intelligence

Portfolio

Audiscribe | audiscribe.vercel.app

- Built premium transcription platform with AssemblyAI integration featuring intelligent speaker recognition, time-synced navigation, and polished document exports.
- Processed 1,000+ hours of audio content, demonstrating platform scalability and reliability in handling diverse transcription needs with precision.

Cashflow Dojo | cashflowdojo.vercel.app

- Developed full-stack expense tracker featuring advanced analytics, smart spending insights, multi-currency support, real-time updates, and secure authentication.
- Attracted and retained 100+ registered users, validating product value proposition and reliability as a personal finance management tool.
