Summary

Next.js Developer with deep expertise in the React ecosystem, specializing in building performant web applications. Leveraging unique background in quality assurance to create robust, thoroughly-tested frontend solutions. Advanced through multiple roles demonstrating technical growth and leadership abilities, while maintaining focus on user experience and project delivery excellence.

Experience

Intersys

Karachi, Pakistan

Senior Scope Writer

02/2024 - 10/2024

- Pioneered and implemented a new outline writing methodology that significantly improved content writer comprehension and reduced project completion times
- Led scope writing and QA teams while consistently delivering 60+ book outlines monthly, maintaining high quality standards across complex writing projects
- Mentored team members in outline development best practices while fostering effective cross-functional collaboration with content writing teams

Intersys

Karachi, Pakistan

Associate Scope Writer

10/2023 - 02/2024

- Created detailed book outlines and project roadmaps for 30+ books monthly while upholding QA responsibilities
- Received Employee of the Year recognition and highest appraisal package during annual review cycle
- Balanced dual scope writing and QA roles, consistently meeting project deadlines while maintaining quality standards

Intersys

Karachi, Pakistan

Quality Assurance Associate

09/2022 - 10/2023

- Elevated production team performance through implementation of enhanced QA processes and structured feedback systems
- Conducted thorough analysis of client calls and content reviews, directly contributing to improved team workflow and productivity
- Awarded performance-based promotion within 4 months, receiving recognition during annual company appraisal cycle despite

HomeEasy Brokerage

Chicago, United States

Team Lead

01/2022 - 06/2022

- Managed a 5-person client service team while handling relationships with 150+ daily clients
- Established streamlined communication processes and implemented workflow improvements for enhanced team efficiency
- Developed specialized handling system for high-potential clients, including direct coordination with finalizing team

HomeEasy Brokerage

Chicago, United States

Client Service Associate

09/2021 - 01/2022

- Maintained highest client response rate within team through rapid engagement and follow-up system
- Managed relationships with 100+ daily clients, providing targeted property recommendations based on detailed requirement analysis
- Recognized for exceptional communication efficiency and client relationship management

Skills

Next.js · React.js · TypeScript · JavaScript (ES6+) · HTML5 · CSS3 · Tailwind CSS · Material-UI · Shadcn UI · Ant Design · Redux · Zustand · React Context API · React Query · RESTful APIs · GraphQL · WebSocket · Auth.js · MongoDB · MySQL · Supabase · Firebase · Git · GitHub Actions · Webpack · Babel · Vercel · AWS · Jest · React Testing Library · Lighthouse · Responsive Design · Cross-browser Compatibility · Accessibility (a11y)

Education

IU University of Applied Sciences
B.Sc. in Applied Artificial Intelligence

Bad Honnef, Germany
06/2021 - Present

Projects

Audiscribe

[audiscribe.vercel.app](#)

- Architected a Next.js and TypeScript-based transcription platform, implementing server-side rendering and API route handlers for optimal performance
- Integrated AssemblyAI's WebSocket API for real-time audio processing, building a custom hook system for state management and error handling
- Engineered a secure file processing pipeline with client-side validation, supporting multiple audio/video formats up to 50MB with automated cleanup
- Implemented time-synced text navigation using React's useRef and custom event handlers, enabling precise audio-transcript synchronization
- Built an optimized document export system using custom templating for generating professional Word documents with speaker identification

Cashflow Dojo

[cashflowdojo.vercel.app](#)

- Developed a full-stack expense tracking application using Next.js 14 App Router, leveraging server components
- Implemented secure authentication system using Auth.js with social provider integration
- Built dynamic analytics dashboard using Recharts for real-time data visualization across 18 currencies
- Designed efficient data fetching patterns with React Server Components
- Created responsive UI components using Tailwind CSS and Shadcn/ui, implementing custom animations for enhanced interactivity
