Experience

Intersys
Karachi, Pakistan

Senior Scope Writer
02/2024 - 10/2024

- Managed scope writing and QA teams while personally creating 60+ book outlines monthly, overseeing complex writing projects and client relationships
- Successfully led cross-functional teams while maintaining exceptional quality standards, demonstrating ability to balance multiple leadership roles with direct scope writing responsibilities

Intersys
Karachi, Pakistan

Associate Scope Writer
10/2023 - 02/2024

- Created detailed book outlines and project roadmaps for 30+ books monthly while maintaining QA responsibilities, ensuring alignment between client requirements and deliverables
- Recognized as Employee of the Year with highest appraisal package during annual review cycle, acknowledging exceptional performance in dual scope writing and QA roles

Intersys
Karachi, Pakistan

Quality Assurance Associate
09/2022 - 10/2023

- Performed comprehensive QA analysis of client calls and cross-departmental content reviews across writing teams, ensuring quality standards and compliance
- Awarded performance-based promotion within 4 months, receiving recognition during annual company appraisal cycle despite brief tenure

HomeEasy Brokerage
Chicago, United States

Team Lead
01/2022 - 06/2022

- Led and mentored a 5-person client service team while managing direct relationships with 150+ daily clients, implementing streamlined communication processes
- Maintained highest client response rate while expanding responsibilities to include process improvement initiatives and cross-departmental collaboration with finalizing team

HomeEasy Brokerage
Chicago, United States

Client Service Associate
09/2021 - 01/2022

- Served as primary client contact, analyzing housing requirements and providing tailored property recommendations for 100+ prospective clients daily
- Achieved and maintained highest response rate within 5-person team, earning recognition for exceptional client communication efficiency

Education

IU University of Applied Sciences
B.Sc. in Applied Artificial Intelligence

Bad Honnef, Germany
06/2021 - Present

Projects

Audiscribe
audiscribe.vercel.app

- Developed a free transcription platform using Next.js, React, and TypeScript, integrating AssemblyAI's API to deliver professional-grade audio-to-text conversion with intelligent speaker recognition
- Implemented a responsive UI with Tailwind CSS and Shadcn/ui components, featuring time-synced navigation that allows users to jump to specific timestamps by clicking on transcribed text
- Developed a secure file processing system supporting multiple audio/video formats up to 50MB, with automatic post-transcription file deletion to ensure user privacy
- Built an optimized document export feature that generates polished Word documents with speaker tags and timestamps, streamlining the transcription workflow for professional use

Cashflow Dojo
cashflowdojo.vercel.app

- Created a modern expense tracking application using Next.js and TypeScript, featuring secure authentication via Auth.js with Google and GitHub integration
- Designed and implemented an interactive analytics dashboard using Recharts, providing users with real-time visualization of spending patterns and category-wise expense breakdowns
- Built a comprehensive expense management system supporting 18 major currencies and 11 preset categories, with advanced filtering and sorting capabilities
- Developed a responsive, intuitive interface using Tailwind CSS and Shadcn/ui, incorporating real-time updates and smooth transitions for an enhanced user experience
